are evolving with your needs!

# We are here to support your evolving needs

Since our company's inception in 1972 by our founder, Bob Barker, we have come a long way on our journey as an organization. As we celebrate over half a century of service, we take pride in our ability to adapt while staying true to our roots and evolving over time to meet and exceed your expectations. One way we've evolved is with our mattress offering.

We started our mattress manufacturing operation with cotton core mattresses in 1975. The 1990s brought about a need for new, more durable materials, so we developed the polyester core, which became the industry standard. Over time, we have continually evolved to address the concerns voiced by our customers, focusing on security, core durability, comfort, stringent testing and regulations. In response to your needs we launched our strongest mattress, the Spartan®, in 2020.

**Innovation** is at the heart of our evolution, especially as we proudly unveil the Evolve™ Foam Mattress, our most comfortable mattress ever. We constantly harness the latest technologies to deliver products that enhance the health, safety, and security of your facilities.

**But mattresses are not the only way we've evolved to meet the unique demands of our customers.**

We currently span two distribution sites – one in Fuquay-Varina, NC, and another in Ogden, UT – to deliver your products faster and more efficiently. We also have a dedicated nationwide sales team to ensure we can visit customers in person and forge stronger connections and deeper understanding.

We constantly search for ways to service our customers better, like by offering **free shipping** to our customers. Or by making enhancements to our website, as with our recently added ability to re-order **custom kits online**. We are committed to continuously enhancing our technological offerings, with more exciting features in the pipeline.

As we march forward into the future, one thing will always remain constant: our unwavering dedication to our customers. We are here to support your evolving needs, and we look forward to another 50 years of partnership as we navigate the ever-changing landscape together. Thank you for choosing Bob Barker Company.

# Pat Barker

## The Cornerstone of Success in the Evolution of Bob Barker Company

In the world of business, success often takes the spotlight, with entrepreneurs and founders celebrated for their innovation and passion. Yet, behind every great visionary, there is often an unsung hero working tirelessly to ensure stability and growth. In the case of Bob Barker Company, that unsung hero is Pat Barker, the wife of founder Bob Barker. Together, they have forged a partnership that has been instrumental in the evolution and success of Bob Barker Company becoming the leading supplier of correctional, detention, mental health, rehab and long-term care facilities.

**F**ounded in 1972, the Bob Barker Company has become a household name among those in corrections and detention roles. Bob himself is known for his innovative spirit, curiosity, and unbridled passion for customer service. However, as he dedicated his energies to building the company and developing groundbreaking products, it was Pat who laid the crucial foundation for stability within the organization.

From the outset, Pat played a pivotal role within the company. Her financial acumen ensured that the company's fiscal health remained robust, providing the essential stability needed for long-term growth. Pat also served as the corporate secretary and oversaw all matters of corporate governance. Perhaps most importantly, she ensured that Bob "played by the rules" during the formative years of the company, establishing a culture of integrity and compliance that has endured over five decades.

The evolution of Bob Barker Company is a testament to the complementary partnership between Bob and Pat. While Bob focused on product innovation, finding solutions for customers, and building a strong presence across

correctional and detention facilities, Pat worked tirelessly behind the scenes to keep the company running smoothly. It was this harmonious blend of innovation and stability that allowed the company to thrive and adapt to changing times.

Pat's contributions to the success of Bob Barker Company extend far beyond her roles within the organization. Her journey from academia to the corporate world is a remarkable story in itself. Pat earned her undergraduate degree from the University of South Carolina before starting her pursuit of a Master's in organic chemistry at Emory University. Her love for Bob made her want to move closer to him, so she moved back to North Carolina and completed her Master's at Duke University. The couple married in June 1963, marking the beginning of a partnership that would shape the future of the company.

Before joining Bob Barker Company in 1977, Pat made her mark in the cosmetics industry. As one of the few female chemists at Almay, she spent 13 years developing cosmetics, showcasing her dedication and expertise. Her passion for learning didn't stop there; she later earned another degree from Duke University –

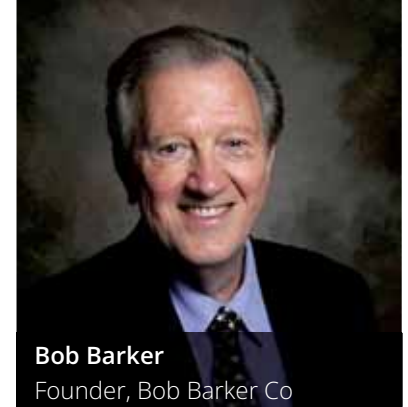

a Master's in business – further enhancing her ability to contribute to the growth of the family business.

In an industry often dominated by male entrepreneurs, Pat's story is a shining example of resilience, adaptability, and unwavering support. Her dedication to her husband and the company they built together is a cornerstone of its enduring success.

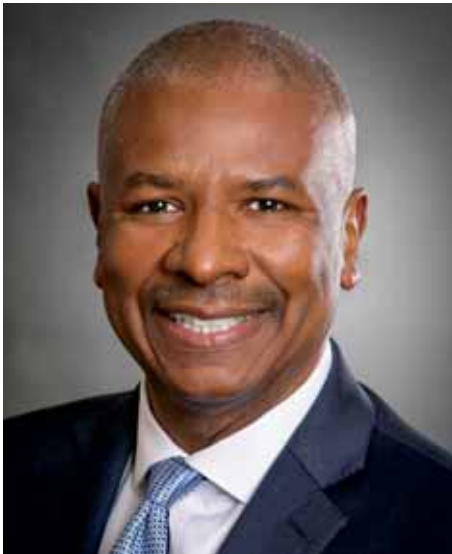

As we celebrate the evolution of the Bob Barker Company over its 50+ years of history, it's essential to recognize the vital role Pat has played in this journey. Her commitment to financial stability, administrative excellence, and a culture of integrity has allowed the company to grow and adapt while maintaining its core values.

The story of the Bob Barker Company is not just one of innovation and service; it's also a testament to the power of partnership and the invaluable contributions of individuals like Pat. As we look to the future, we can be certain that the legacy of Bob and Pat Barker will continue to shape the evolution of this remarkable company, ensuring that it remains a leader in corrections and detention for years to come. 🌟

# Bob Barker FOUNDATION

**Bob Barker**  
Founder, Bob Barker Co

**Kurtis Taylor, BSW, Exec. Director**  
Bob Barker Foundation

Greetings,

My name is Kurtis Taylor, and I am honored to serve as the new Executive Director of the Bob Barker Foundation. I approach this role with sincere gratitude, while I embrace the magnitude of the task at-hand. Our society incarcerates individuals at an alarming rate, and too many are destined to return to prison after release. As a person in long-term recovery from substance use disorder, I have also been incarcerated. I understand the hopelessness and trauma associated with the prison experience. Further, I appreciate the importance of resources and support for persons returning home from incarceration. I am dedicated to advocacy for returning citizens – restoring dignity and humanity to the lives of people that have been justice-impacted.

Upon my release from prison, I was privileged to serve as the Reentry Coordinator for Oxford House, Inc., where I went back inside institutions and helped people transition from prison to the safe and sober supportive living environment of Oxford Houses. Years later, I accepted the role of Executive Director of the Alcohol Drug Council of NC where I led an incredible team dedicated to connecting citizens experiencing substance use and mental health issues with the resources they desperately need. Reentry and recidivism reduction is my passion. I want people to come home from prison and never go back. I want people to get the opportunities to achieve their highest potential, regardless of their past. I am grateful to God that He positions me and equips me to impact the lives of formerly incarcerated individuals all over the country. I am excited to work with a company whose vision is to, "Transform criminal justice, while honoring God in all we do." At the Bob Barker Foundation, reducing recidivism is who we are at our core. Again, I am honored to serve as the leader of the Foundation, and I am incredibly excited about the impact that we are having.

Sincerely,  
Kurtis

# Healing from Within

The Bob Barker Foundation is at the heart of everything we do at Bob Barker Company. We tithe at least 10% of our net profits every year to the Foundation with the singular goal of reducing recidivism. The national recidivism rate is around 67%, but Foundation Grantees have an average recidivism rate of about 11%. The funds we provide to our Grantees assist in the development and support of programs that help incarcerated individuals successfully re-enter society and stay out for life. To learn more about the Bob Barker Foundation or how you can get involved, visit [bobbarkerfoundation.org](http://bobbarkerfoundation.org).

## Pardoned by Christ, North Carolina

Scan QR Code to learn more about Pardoned by Christ Program

Joseph is an overcomer thanks to PBC supporters. After 15 years in prison and 2 years in the PBC Transitional House, Joseph has an excellent full-time job (with benefits), an apartment, and his own vehicle. He is a role model to his children and grandchildren. And he will tell you how good Jesus is if you hang around Him!

## Bridges to Life, Texas

Scan QR Code to learn more about Bridges to Life Program

"I am still so grateful for the Bridges to Life program. The curriculum and volunteers helped me identify where I took the wrong turns in my life. In my twenties, I did not know how to pivot past my mistakes and get over being a victim in my own story. Through the course, I learned about accountability, vulnerability, honesty, and

forgiveness. It taught me about the ripple effects of my choices and made me realize who all I was impacting. I really wanted a better life and this program taught me several tools to use in attaining that for myself and my family. I graduated from BTL in 2016. Since then I have gotten married and have been reinstated as a

licensed Registered Nurse working in an Emergency Room helping trauma patients. Thank you to everyone who supports this program and cares about helping others."

*Forever Grateful, J. BTL Graduate*

# How to Read Our Case Charts

## Master Case Quantities

Ordering is now easier and more efficient than ever! Based on your requests, we added master case quantities to all applicable products in our catalog. Master case increments will help you easily determine the best shipping, handling, receiving and storage in your warehouses and stock rooms.

## Master Case Quantity Based on Cases

### Master Case Quantity Example

ITEM #	COLOR	SIZE	CS QTY	MASTER CS QTY
000-(TUBE)	Blue	0.6 oz	144	720*

\*5 cases per master case

1 Master Case

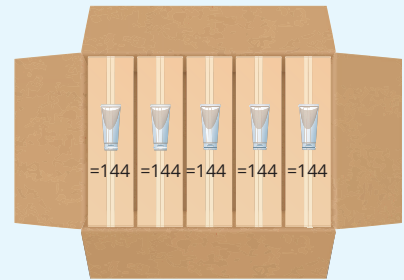

144 Tubes/Box

### Master Case Quantity Example

ITEM #	COLOR	SIZE	CS QTY	MASTER CS QTY
000-(TUBE)	Blue	0.6 oz	144	720*

\*5 cases per master case

5 Individual Boxes = 1 Master Case Qty

5 Boxes x 144 Tubes/Box = 720 tubes/Master Case

### Master Case Quantity Example

ITEM #	COLOR	SIZE	CS QTY	MASTER CS QTY
000-(TUBE)	Blue	0.6 oz	144	720*

\*5 cases per master case

## Master Case Quantity Based on Individual Units

### Master Case Quantity Example

ITEM #	COLOR	SIZE	BOX QTY	MASTER CS QTY
000-(SIZE)	Blue	S-XL	1	10*

\*1000 gloves per master case

1 Master Case

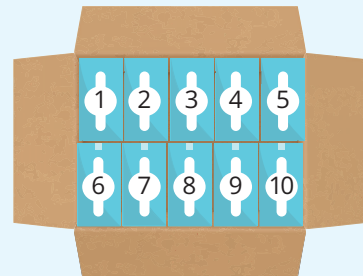

1 Box Qty. = 100 Gloves/Box

Please Note: Some larger sizes are 90 Gloves /Box

### Master Case Quantity Example

ITEM #	COLOR	SIZE	BOX QTY	MASTER CS QTY
000-(SIZE)	Blue	S-XL	1	10*

\*1000 gloves per master case

10 Individual Boxes = 1 Master Case Qty

10 Boxes x 100 Gloves/Box = 1,000 Gloves/Master Case

# TABLE OF CONTENTS

### Master Case Quantities

Ordering is now easier and more efficient than ever! Based on your requests, we added master case quantities to all applicable products in our catalog. Master case increments will help you easily determine the best shipping, handling, receiving and storage in your warehouses and stock rooms.

### Drop Ship

This icon represents the drop shipment of a product. Our standard shipment is 2-3 weeks. If the delivery time extends beyond three weeks, a footnote will appear below the product chart indicating the length of time it will take to ship that product. Please note that restocking charges may apply to returns.

### Price Check

Pricing and/or availability for these products may fluctuate from suppliers beyond our control. To receive the latest prices and availability, please visit [bobbarker.com](http://bobbarker.com) or call 800.334.9880.

# BARKER INNOVATIONS

**B**arker Innovations are products that we designed in-house for the unique needs of our customers. Our dedicated Product Development Team works with customers like you to research and develop modern solutions for your specific needs. Barker Innovations make your operations more convenient and efficient, and they also help make them safer and more secure. Plus, Barker Innovations are proprietary to Bob Barker Company and you won't find them anywhere else!

## Innovation

Throughout our 52-year history, Bob Barker Company carried the title of America's Leading Detention Supplier. But over the last decade, the company evolved into much more than a supplier. To address the unique needs of jails, prisons, mental health and rehabilitation centers, and juvenile facilities, Bob Barker Company put a stronger focus on its strategy of developing its own products to complement the supplies it sources domestically and internationally.

## Product Development Team

Led by its own Product Development Team, internal product research and development are key components of Bob Barker Company's value to its customers. The Product Development Team brings the expertise that customers require in their search for healthier, safer, and more secure products. The team comprises of design engineers with expertise in CAD software and prototyping, plus testing equipment dedicated to developing products.

The Product Development Team, along with direct input from customers like you, has developed exclusive Bob Barker Company products including the Lifeline® Crossback Safety Smock, Pair-it®, EVA Unifoot Sandal, Innoshield 8K™, silicone game sets and pieces, Exo-Frame® Toothbrush, and more.

# Customer Panel

Customer feedback is an integral part of our product development process, and we recently created a Customer Panel to foster more discussion on how to make facilities safer and more secure. The Customer Panel works closely with our team to give input, make suggestions, and test new products. Members of the Customer Panel are the first to pilot new products and services from Bob Barker Company, and they get to help make a difference in our industry.

## How to Become Involved

If you would like to learn more about joining the Customer Panel or if you would like to share any product ideas, please email us at [ideas@bobbarker.com](mailto:ideas@bobbarker.com).

This symbol denotes products for which the Customer Panel gave valuable input. Look for it throughout the catalog!

## Customer Panel Member Insights

### Why do you feel it is important to be a member and contribute to the Customer Panel?

The fact that Bob Barker has this program shows they value the customer's input. I feel my input helps address concerns with different products which helps in keeping our correctional environment safe.

#### Lieutenant Brian Harris

Tuscola County Jail Administrator  
Caro, MI

Being a part of the customer panel is important to me because it gives a voice to the juvenile justice profession regarding product development. Panel participants provide direct feedback for the leading company in the industry, impacting product development and availability for the work we do in our communities. By participating in the panel, we are able to help shape product development to best meet our profession's needs. I am thankful to be a part of the development of new products that enable us to better serve our community.

#### Dan Sharp

Chief Deputy Juvenile Officer  
Saint Joseph, MO

I feel it is important to be a member of the Customer Panel to offer input from over 30 years of experience on what has worked and what could be improved in the world of corrections products. All panel members bring a wealth of information and knowledge to the table and even though we all come from different size operations we all have common goals in first of all, the safety and security of the facility we represent and fiscal responsibility to find correctional products that have a good price point and can stand up to the tough correctional environment. Being a panel member and offering input on new concepts and products allows panel members an opportunity to feel heard and feel a part of the introduction of new items.

#### Tim Thielman

Lieutenant CFSM, CCFP  
Community Corrections | Health and Wellness  
Maplewood, MN

# ADVANCED DESIGN

Helps Prevent the Risk of Weaponization

EXO-FRAME®

Toothbrush

Visit: [bobbarker.com](http://bobbarker.com)

**Unique Patent Design:** The Exo-Frame Toothbrush's design utilizes a series of small connectors that are stabilized with an alternating support system. The support system reduces the amount of continuous material that can be used as a weapon, but the toothbrush maintains structural integrity when used as intended. When manipulated, the Exo-Frame Toothbrush separates into smaller pieces and lowers the chance of weaponizing the toothbrush.

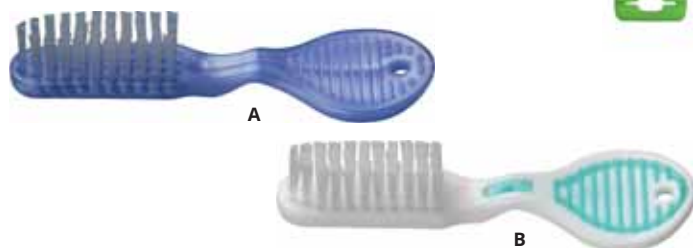

## Exo-Frame Toothbrush

- Small individual components that are difficult to weaponize
- Toothbrush support system loses structural integrity when manipulated
- Space between each connector limits the available material that can be turned into a weapon
- Short length of the Exo-Frame® Toothbrush provides less material that can be manipulated
- Individually packaged in clear bag

# Making Safety the #1 Priority!

## Distinctly Different for a Reason.

### Why Colored Razor Blades?

- Distinct color difference between regular stainless steel and colored blade
- Vibrant colors make tampered blades easier to detect
- Speed up collection and inspection times for officers
- Reduces inmates' ability to replicate the blade
- Increase safety in the facility by reducing the potential for razor blade-related incidents

### Maximum Security® Colored Single Razor Blade

- Clear head allows for a quick inspection of the blade
- Clear handle eliminates ability to hide contraband within the handle

ITEM #	CS QTY	CS PRICE	MASTER CS QTY

# Say Goodbye to Wasted

PACKAGING, PRODUCT, TIME AND MONEY!

with **RapidPak®**

The RapidPak® 3-in-1 dissolvable pak contains a convenient, effective shower, shampoo and shave liquid that leaves no waste behind. Distribution is a breeze, and worrying about portion control or messy dispensers is a thing of the past. Not only is RapidPak great as a shampoo, body wash and shave formulation, but it will keep your surroundings tidy too, with no wrappers or bottles that will lie around or clog drains.

## RapidPak® 3-in-1 Dissolvable Paks

- Shower, shampoo, shave
- Mild fresh scent
- Light yellow color
- Non-toxic, animal fat-free and alcohol-free
- 10 bags of 50 paks

ITEM #	SIZE	CS QTY	CS PRICE	MASTER CS QTY
PAK3N1	0.35 oz	500	\$264.48	—

## Here's what Richard Gowen had to say about RapidPak...

"Folkston ICE Processing Center has been using the RapidPak 3-in-1 dissolvable soaps for quite some time now. We could not be more pleased with this product. Aside from being very economical, we are delighted with the fact that we no longer have the "soap-scum" issues caused by soap bars.

"Previously, we would have partially used soap present in our showers, urinals, etc., which always caused problems for sanitation as well as maintenance since bar soap tends to clog urinals and toilets and inhibit shower drain systems.

"... I would not hesitate to recommend this product to other detention facilities."

**Richard D. Gowen**  
Assistant Warden, Finance & Administration  
Folkston, GA

### CLEANER ENVIRONMENT

Eliminate wrappers and bottles left on the floor

### NOTHING TO CLOG

Avoid costly, clogging issues with toilets and drains

### SIMPLIFIED HANDLING

Easier and less messy distribution of product

### REDUCE PRODUCT INVENTORY

Eliminate gallon containers, pumps, and dispensing cups

# When it comes to safety It's our job, to keep the risk minimized

Contraband inspection has never been easier, quicker and more cost-effective than with our complete line of Clear personal care products. Our top-quality clear shampoos, deodorants, toothpastes and other personal hygiene products are packaged in see-through plastic containers that make it virtually impossible to hide any contraband. Available in a variety of sizes and quantities, our alcohol-free and animal fat-free products are value-priced to fit your budget.

CLEAR packaging is the CLEAR choice from shampoos, soaps, toothpastes and so much more.

## Clear and Meridian® All-In-One

# LICEOUT®

## Single-Use Packets

### Convenient Lice Control Shampoo

The LiceOut® Lice Control Shampoo Single-Use Packets only from Bob Barker Company, take the guesswork out of lice shampoo distribution and application while providing trusted efficacy and lice-stopping power.

#### Easy to Distribute

- Hand out one packet per person instead of wasting time measuring shampoo
- No need to count doses or manage dose cups
- Takes up less shelf space than numerous gallon-sized jugs
- Reduces spillage compared to using large jugs
- No more wasted product left in the bottom of a jug

#### Easy to Use

- Efficacious active ingredient treats head, pubic (crab) and body lice
- Less likely to cause irritation due to overuse of product (one packet is one application)
- Provides better accountability for inventory by officers and usage by residents

#### Non-Foaming LiceOut® Shampoo

- Ingredients include Pyrethrin and Piperonyl Butoxide, to treat head lice, body lice, and crabs
- Each gallon includes one pump

#### Directions:

1. Apply liquid solution to affected area for 10 minutes
2. Wash thoroughly with warm water and soap or shampoo
3. Use a fine-toothed comb (sold separately) to remove dead lice and their eggs (nits) from hair
4. Repeat process within 7-10 days to kill any newly hatched lice

# Selecting the Correct Glove

## Vinyl Gloves

- Low protection
- Standard-level barrier protection
- Looser fit
- Low elasticity
- Latex-free
- More economical, lower cost

## Latex Gloves

- Medium protection
- Mid-level barrier protection
- Sets standard for great fit and comfort
- Very resistant to punctures
- Superior elasticity, memory and resiliency
- Not suitable for those with latex allergies
- Can cause development of latex allergy if worn often

## Nitrile Gloves

- High protection
- High-level barrier protection
- Protein and latex-free
- Highly resistant to punctures
- Excellent resistance to chemicals & biohazards
- Good elasticity, memory and resiliency
- Slightly tighter fit
- Synthetic material prevents latex allergy

Generally Accepted Glove Selection	Level of Risk	Criteria	Application
<b>Vinyl   Latex Gloves</b> (Industrial or Examination)	Low	<ul style="list-style-type: none"> <li>• Low level glove stress</li> <li>• No blood   bodily fluid contact</li> <li>• Low-risk or non-hazardous conditions</li> </ul>	<ul style="list-style-type: none"> <li>• Dispensing medicine</li> <li>• Inmate transport</li> <li>• Non-invasive physical exams</li> <li>• Low-risk booking</li> <li>• General purpose (cleaning, food handling, laundry)</li> </ul>
<b>Latex   Nitrile Examination Gloves</b>	Medium	<ul style="list-style-type: none"> <li>• Bodily fluid contact</li> <li>• Procedures that stress the gloves</li> <li>• Invasive procedures</li> </ul>	<ul style="list-style-type: none"> <li>• Wound care</li> <li>• Body searches</li> <li>• Forensics   lab</li> <li>• Higher-risk booking</li> <li>• Resident transfer</li> <li>• Squad car</li> </ul>
<b>Nitrile   Latex Examination Gloves</b> (Extended Cuffs and Higher Mil Thickness for Added Protection)	High	<ul style="list-style-type: none"> <li>• High risk of infection (HIV, HBV, HCV)</li> <li>• Use of chemicals</li> <li>• Need for extreme barrier protection</li> </ul>	<ul style="list-style-type: none"> <li>• Chemical resistance</li> <li>• Medical   dental exams</li> <li>• Cell and body search</li> <li>• Forensics   lab</li> <li>• Extreme exposure</li> </ul>

## Medical Grade vs Industrial Grade

### Medical Grade Gloves

- Requires FDA oversight and approval
- Helps prevent contamination between caregivers and patients where people will come in contact with bloodborne pathogens (bodily fluids)

### Industrial Grade Glove

- Used in industrial settings and food service
- Compliant with the Federal Food Drug and Cosmetic Act

## AQL: Acceptable Quality Level Chart

# of Pinholes*	1.5	2.5	>3.0
Type of Glove	Surgical Gloves	Medical Grade Gloves	Food Service   Industrial Gloves

\*The FDA grades glove quality on ratio of pinholes per 100 gloves tested. The above chart clarifies quality standards using the approved pinhole ratios

- 100 gloves/box

ITEM #	COLOR	SIZE	BOX QTY	MASTER CS QTY
69-318-(SIZE)	Natural	S-XL	1	10*

\*1000 gloves per master case

**SPECIFICATIONS**

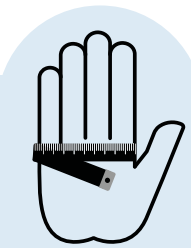

CUFF THICKNESS	PALM THICKNESS	FINGER THICKNESS	PINHOLE AQL
2.8 mils	4.7 mils	5.5 mils	1.5

**TIP #1**

For best fit, use a flexible tape measure to determine hand circumference in the widest section of the palm.

**TIP #2**

Avoid webbing between the fingers and ballooning at the fingertips. Gloves should be moderately tight around the cuff.

SEE PAGE 243

# LifeLine<sup>®</sup> CROSSBACK

U.S. Patent #11,191,310

The **LifeLine<sup>®</sup> Crossback Smock** is a convenient option for resident smocks. The unique, patented design of the Crossback Smock makes laundering easier because there are no attachments that can fall off or degrade while washing. Plus, there is no hook and loop that can collect lint or other materials that make the smock difficult to use.

### Crossback Smock

- Easily adjustable to fit most body sizes
- Unisex construction provides high level of modesty for a variety of body types
- Heavy-duty polyester fabric quilted to polyester batting stands up to the most rigorous environments

ITEM #	CS QTY	CS PRICE	MASTER CS QTY
CROSSBACK	1	\$189.99	6

Please Note: Due to liability reasons, returns and exchanges are not permitted for LifeLine<sup>®</sup> products

### Easy to Wash and Maintain

- No hook and loop or other closures that can rip off and require an expensive replacement
- No wasted time fastening closures in order to launder
- No fasteners that can scratch, rip or tear the smock fabric
- Stain-resistant, fire-resistant and tear-resistant

### TRADITIONAL SMOCK

Over time, laundering smocks with hook and loop can result in the collection of lint and prohibit the smock from closing properly.

### LIFELINE<sup>®</sup> CROSSBACK

The Crossback Smock's unique, one-piece design saves time by eliminating any fasteners to close prior to washing.

### Shoulder Adjustment

## Different Body Sizes, One Smock — No Problem!

The Crossback Smock adjusts to fit nearly any body size. For example, it will fit 100-lb residents as well as 350-lb residents with a quick adjustment on the shoulders. There's no longer a need to buy multiple sizes to fit your entire population. *Two very different body sizes and just one Crossback Smock!*

Crosses over in the back and adjusts comfortably at the shoulders.

Straps easily adjust to various body sizes. One-size-fits-most smock simplifies inventory and eliminates the need for junior smocks.

One-piece construction provides high level of modesty for all body types.

Use of these products is not a substitute for careful monitoring of individuals on suicide watch.

## Resident Safety

All-in-One Bed, Blanket & Helmets

# Resident Safety Products by Bob Barker

### Helps increase safety in your facility:

- Protects inmates from chaffing and provides warmth
- Difficult to twist into knots or ligatures
- Material is tear-resistant

### High quality:

- Meets ASTM D4151 flammability requirements
- Lockstitch quilting and inner batting
- Polyester fabric
- Easy to wash and dries quickly

Please Note: Due to liability reasons, returns and exchanges are not permitted for LifeLine® products

## LifeLine® Blanket

- Offers full coverage and warmth without compromising security
- Two heavy-duty polyester fabric outside faces lockstitch quilted to polyester inner batting

## LifeLine® Vivid Blue Smock and Blanket

- Fits all sizes up to 300 lbs with adjustable hook and loop fasteners
- For additional security, the smock has no side seams
- Unique, Vivid Blue color contrasts with surroundings
- Contrast yellow stitching allows for quick identification when stitching has been tampered with
- Fire-resistant and tear-resistant
- Built to last: double needle stitching with strong bonded polyester thread and heavy-duty outside polyester fabric faces

No Snaps. No Zippers. No Hook and Loop.

# NO HASSLE

The SoloSuit® is a revolutionary jumpsuit that solves your biggest uniform-related headaches. The SoloSuit design eliminates hardware and utilizes a unisex, one-piece construction to make uniform management easier than ever!

## SoloSuit® Jumpsuit

- No snaps, zippers, or hook and loop closures that can break requiring jumpsuit replacement
- One-piece construction reduces chance for indecent exposure
- No metal hardware, prevents false readings on metal detectors
- Simplifies laundering by eliminating closures to fasten beforehand
- No pocket for added security
- Screen printed uniform size in large letters for quick-read, long-lasting identification
- Industrial fabric finish
- Minimum 7.5 oz 65% polyester / 35% cotton fabric
- Colored thread to match jumpsuit
- Jumpsuit is true-to-size with adaptable elastic to fit comfortably around the waist
- Bleach-resistant dye withstands industrial laundering and bleaching
- Unisex sizing accommodates a variety of body types
- Screen printing option available

Metal-free, covered elastic holds its shape and is adjustable to any body type

Sewn-in, short side elastic strips allow for comfort and adjustability

Color-Coded Size Label

Reinforcing Bar Tacks

Bleach-Resistant Fabric

High-Temperature Elastic

True Extension Waistband

Heavy-Duty Thread

Industrial Fabric Finish

3-Needle Felling Stitch Seam Construction

## The TriStitch® Difference

- 3-needle felling stitching on all seams for extra strength and durability
- Heavy-duty thread made from cotton-wrapped polyester is colored thread to match uniform inside and out
- Bar tacks reinforce stress points to reduce repairs and increase longevity
- Consistent fabric weight made from 65% polyester/35% cotton with a minimum weight of 7.5 oz
- Bleach-resistant dye stands up to institutional laundry and bleaching with minimal shade loss
- Industrial fabric finish resists creases
- Extra generous sizing for a wide variety of body types
- High temperature elastic holds up under boiling temperatures of 260° F for 4 hours
- True expansion waistband finished with 4 rows of stitching allows maximum give without putting excess stress on stitching

foam mattress

*A new beginning for foam mattresses*

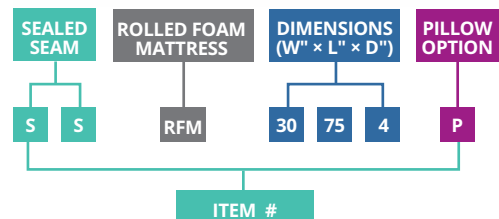

The Evolve™ Foam Mattress is a first of its kind foam mattress from Bob Barker Company. Evolve™ combines a non-flattening foam core with a Soft Feel fabric cover for superior comfort and exceptional quality.

### Evolve™ Foam Mattress

- Foam core resists flattening for longer-lasting durability compared to polyester or cotton cores
- Plush, body contouring foam provides additional comfort
- Soft Feel cover will not crack and adds to the lifespan of the mattress
- Integrated pillow provides neck support
- Mattresses are rolled before shipping to create a smaller storage footprint

ITEM #	DESCRIPTION	DIMENSIONS	CS QTY	CS PRICE/EA	PALLET QTY
SSRFM25754P*	With Pillow	25" × 75" × 4"	2	\$250.00	32

EXAMPLE: ITEM # SSRFM30754P

**NEW**  
PRODUCT

Provide your residents a comfortable, long-lasting mattress they will appreciate and a built in pillow that contours and supports both neck and head.

- Delivered rolled in pairs
- Unrolls and returns to its full, normal shape in less than 30 minutes
- Easier to receive and manage
- Less waste: no cardboard boxes to throw out

## Easy to unroll and get started

### Step 1

Lay bag on its side and cut open with scissors, making sure to pull bag away from mattresses in order to not damage the covers

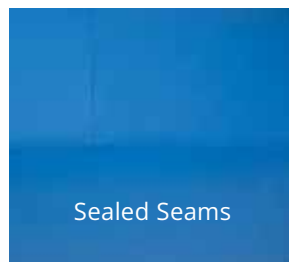

### Step 2

Pull the mattresses out from the bag and allow them to lay flat separately

### Step 3

The mattresses will fully restore to normal size and shape within 30 minutes

# SimplaSheet® & SimplaSheet® AQ

## Combined Mattress Cover & Sheet System

The SimplaSheet® is a unique combined mattress cover and sheet system that provides convenience and comfort. Users can slip a mattress into the mattress cover portion, and the attached sheet folds over the user to provide warmth during sleep. SimplaSheet® simplifies inventory and laundering with only one product to distribute and manage instead of separate mattress covers and sheets.

The SimplaSheet® and SimplaSheet® AQ are not intended or recommended for use as suicide prevention or safety products.

### Dimensions:

#### Mattress Cover (W × L)

- 25" × 76" or 30" × 76"

#### Quilted Cover Sheet (W × L)

- 55" × 76"

### Features

- Combined mattress cover and sheet system
- Easy to use: the attached quilted sheet won't fall off the mattress or become tangled
- Simpler to manage: stock fewer products and launder the entire system at once
- Quick distribution: officers can quickly distribute one SimplaSheet instead of having to find matching mattress covers and sheets or blankets
- Helps with accountability: residents are responsible for one bedding product rather than multiple products
- Durable construction that will last: reinforced stitching is used on both models to create extra strength at stress points

Patent Pending

# Security Shower Curtains

Clear and translucent color options include multiple fastener options: hook & loop, snap, and grommet

A

B

## Translucent Hookless Shower Curtain

- 8.5 oz, 3-ply translucent vinyl
- Slight opacity ensures privacy for bathers
- Tear-resistant
- Snap closures

## Soft Rod/Shower Curtain Combo

- Attaches to wall surface with hook and loop
- Eliminates risk associated with metal shower rods
- Lightweight polyethylene foam rod supports shower curtain, yet collapses with additional weight
- 3-ply translucent vinyl allows staff to observe and monitor motion
- Slight opacity ensures privacy for bathers
- Center-split with overlap for easy access

# I'm In Cells

## *The captivating story of Bob Barker and the Bob Barker Company*

Born into a poor family during the great depression, Bob Barker is a model of America's "can do" spirit. Bob was never one to turn down a challenging opportunity throughout his career, working his way from tool carrier and paperboy through the ranks of nuclear safety manager, salesman extraordinaire, newspaper editor, politician, entrepreneur and head of a multimillion-dollar company.

In this book, Bob reveals how he employed hard work, determination, and an indomitable spirit to lift himself from poverty by the proverbial bootstraps, and to build the world's largest detention supply business from the ground up.

# GAME CHANGER

## Flexible Silicone Game Sets and Pieces

Game Sets

Individual Pieces

Bob Barker Company has solved your greatest **game-related concerns** with its Silicone Game Pieces and Silicone Game Sets. The **flexibility** of the silicone dominoes, chess and checkers pieces, game boards, and multi-game pack **enhances security** in your facility by making it more difficult to use the items as weapons, and it adds to the overall durability of the games.

### Flexible Silicone Games

- Pliable material reduces possibility of weaponizing
- Resilient board and pieces return to original shape when bent, stretched, or pressed
- Unable to be melted and molded into various shapes
- Lightweight and safer than heavy pieces
- Quiet when slammed or dropped
- 2-4 players, ages 5 and up

Silicone Tic-Tac-Toe helps create a quieter, safer game time. The game is easy to learn, can be played by two people, and can be used by an individual as a fidget toy.

Patent Pending

### Silicone Tic-Tac-Toe

- Flexible, can't be melted/reformed into a weapon
- Eco-friendly, eliminates the need for a writing utensil and paper
- One-piece construction with bright yellow color for easier visibility
- Visible product that doesn't blend in

Detainees should not be left in the SureGuard®/SoftGuard® Safety Restraint Chair for more than two hours.

The SureGuard®/SoftGuard® Safety Restraint Chair should never be used as a means of punishment.

Visit [bobbarker.com](http://bobbarker.com) for a list of available replacement parts for SureGuard® & Soft Guard® Safety Restraint Chairs

### SureGuard® Safety Restraint Chair DS Law Enforcement and Corrections

- Allows for safe transportation
- Quickly transfer combative detainee without uncuffing through the back panel cutout of the chair
- Easy to use and adjusts to most body types
- Chair weighs 80 lbs and accommodates body weight from 80-400 lbs
- Hook and loop elbow straps ensure full restraint of detainees
- Parking brakes on wheels keep chair in place when needed
- Easy to clean

ITEM #	DIMENSIONS (L x W x H)	CS QTY
ZSG-CORRECTIONAL	46" x 28½" x 42"	1

### SoftGuard® Safety Restraint Chair DS

- One-piece box steel welded frame for long life and durability
- Chair weighs 80 lbs and accommodates body weight from 45-475 lbs
- Full coverage back with extra padding on back and seat for softer, more comfortable restraining period
- Heavy duty 8" diameter wheels with a rated capacity of 450 lbs each
- 2" wide extra long nylon wrist and ankle straps
- Hook and loop soft restraint straps at the elbow for secure restraint of patients while providing maximum comfort
- Non-locking restraint mechanisms at the ankle, wrist, lap and shoulder harness straps for quick release in the event of a medical emergency
- Memory foam headrest reduces chances of head injuries
- Full coverage skid plate beneath the foot plate for ease of chair/patient movement (not intended for transport)
- Brakes on wheels keep the chair in place during the restraint process
- Shoulder straps do not cross the chest and therefore do not restrict breathing

# InnoShield 8K<sup>®</sup>

## ULTIMATE PROTECTION

Against Biting and Spitting

Patent pending

### InnoShield 8K<sup>®</sup>

- Protects from spitting and biting
- Innovative, pre-rolled design allows for safe and easy deployment
- Orange band identifies grasp area
- Quick application method keeps officer's fingers safe
- No straps or plastic pieces that can be turned into weapons
- Form fit prevents adjusting product with shoulders or the ground

- Nylon/Spandex blend promotes durability
- Breathable, wet or dry, InnoShield 8K<sup>®</sup> has over 100% better air permeability compared to a leading respirator mask\*
- Patent pending

\*When tested according to ASTM D737

ITEM #	DESCRIPTION	CS QTY	CS PRICE	MASTER CS QTY
8000	InnoShield 8K <sup>®</sup>	10	\$56.22	300 <sup>†</sup>

<sup>†</sup>30 cases per master case

### Easy, Quick, and Safe to Apply

**Step One** Place product above head with orange band facing up

**Step Two** Grasp two sides of orange band

**Step Three** Pull outward and unroll over head

**Step Four** Continue to pull down until head is fully covered

**Step Five** Adjust as needed once product is in place; translucent mesh should remain above nose and mouth

## Products From SABRE® Red

When situations are out of control ...  
gain control with SABRE® Red Technology!

### Turn up the heat with SABRE® Red

SABRE® Red products contain high-capsaicinoid content that provides greater stopping power. These OC products are backed by a heat level guarantee that ensures the user reliable and consistent results. SABRE's products are designed to maximize target acquisition. Because subjects are constantly ducking and weaving to avoid being sprayed, SABRE's Crossfire™ Technology makes it easy to deploy from any angle for increased accuracy. These tactical models are perfect for corrections or anyone requiring a specific heat level and delivery system.

### Guaranteed to work every time

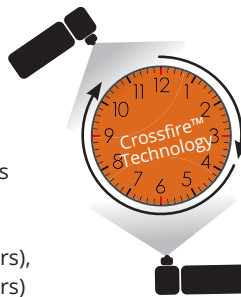

SABRE® is the only brand with a High Performance Liquid Chromatography (HPLC) guarantee: the pepper spray industry's #1 advantage. SABRE's in-house HPLC lab eliminates the 30% heat failure rate experienced with other brands. HPLC guarantees SABRE products deliver maximum strength every single time.

### Maximize target acquisition

#### Crossfire™ Technology

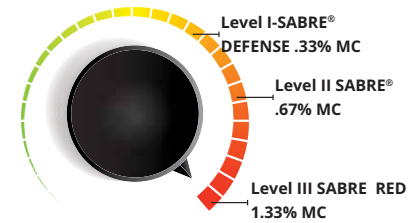

- Reduces cross contamination
- Canister can be continuously deployed from any angle
- Contains marking dye to identify subjects up to 48 hours post contamination on both skin and clothing
- 5-year shelf life saves facilities time and money
- MK-3: 10, 1 sec bursts (2.5 x more shots than competitors), MK-4: 16, 1 sec bursts (2.0 x more shots than competitors)

#### CROSSFIRE™ Technology (1.33% Major Capsaicinoids-MC)

ITEM #	DESCRIPTION	SIZE	RANGE	CS PACK	PRICE
Z52CFT10-GEL	MK-3, Gel	1.5 oz	Up to 20'	25	\$418.75
Z52CFT30-GEL	MK-4, Gel	3 oz	Up to 20'	25	\$487.50
Z52CFT10	MK-3, Stream	1.5 oz	Up to 20'	25	\$400.00
Z52CFT30	MK-4, Stream	3 oz	Up to 20'	25	\$462.50

#### Heat Content

MC = Major Capsaicinoids

This is the BEST indicator of pepper spray strength.

#### No Compromised Position

Crossfire™ technology allows canister to deploy from any angle or orientation!

# PHANTOM Vapor

Z92PTM60-W Model Shown  
with Wand and Hose

## SABRE® Red: PHANTOM DS

- An innovative evaporating fog delivery
- More debilitating inhalation effect
- Ideal extraction tool
- Cell buster will deploy OC underneath doors or through windows, food slots and vents
- Simpler to clean up (fresh air) than traditional fog delivery systems
- Non-flammable
- Hose and wand option available

The Bob Barker Company Quality Team ensures that our products are as safe and reliable as possible. The team tests our sourced products and the products created by our Product Development Team so you always know what to expect when you receive an order from us. Thank you to our Quality Team for all that you do!

## ACCOUNT INFORMATION

### SETTING UP YOUR NEW ACCOUNT

City, county, federal and state facilities are pre-approved for credit. You may call 888.772.0244 to request a new account setup or visit [bobbarker.com](http://bobbarker.com) to download a form. Pre-approved facilities are often approved same day providing the new account set up form is complete. Facilities required to complete credit applications may take 48 hours or longer for credit approval. We gladly accept Visa, MasterCard, American Express and Discover as a payment method to help process new account set up form within 24 to 48 hours.

### SATISFACTION GUARANTEE

If, for any reason, you are not fully satisfied with a purchase from us, simply return the merchandise, in its original condition and with freight prepaid, within 30 days of purchase for exchange, credit or refund. Restocking fees of 20% may apply to stock, drop-ship and metal orders. Custom-made, special-ordered and silk-screened items may not be returned. Please visit [bobbarker.com](http://bobbarker.com) for our complete return policy. Contact Customer Service at 800.527.6011 before returning merchandise, to insure prompt and proper credit to your account.

### CATALOGS

Specifications and pricing in catalog are subject to change without notice. Descriptive, photographic or pricing errors are subject to correction. Catalogs are mailed yearly. If yours has been misplaced, you may request another one at [www.bobbarker.com](http://www.bobbarker.com) or call our sales department at 800.334.9880. If you are receiving unwanted and duplicate catalogs, please let us know so that we can correct our mailing list.

### CUSTOMER SERVICE

For special help with a new or existing order, please call us at 800.334.9880. For quality issue problems/questions, shortages, damages, please contact us at 800.527.6011. Customer service is available Monday through Friday from 8 a.m. to 7 p.m. (ET).

### DAMAGES OR SHORTAGES

Loss or damage on freight must be noted on the delivery receipt at the time of delivery. Please save all of the original packing material.

Once your merchandise leaves our shipping dock, it becomes the responsibility of the freight company to get your order to you timely and completely.

### IMPORTANT

1. It is important that you fully inspect and count your cartons "before" you sign for them. If you have shortages, damages, or problems, you should note this on the delivery receipt. Also you should note if the shrink wrap is intact (or not). These two items are the two most important things you can do, to ensure that a replacement is made and a claim is filed.
2. If you have visible damage on any portion of your order, you should refuse those boxes that are damaged. Look for crushed corners, wetness, and punctures.
3. Sometimes the carrier will damage your package. If you notice that a box appears to be repackaged, ask your carrier to wait while you open it to check for shortage or damage. Refuse it if you find anything amiss.
4. Call our Customer Service Department immediately to report the shortage or damage, 800.527.6011.
